#1 - Proposed Build Sites

Vendor, Nov 12, 2025 1:42 AM CST, Not Public - Pending

Can I be emailed a list of proposed build sites? Clearing and make-ready services differ from location to location and present unique challenges (such as grading) that are not subject to cost per foot or line-item pricing. Sites will need to be walked out and individually evaluated.

This is an RFP for a cooperative contract with indefinite delivery indefinite quantity services offered to the Equalis membership in all 50 states, so there are not specific sites being proposed at this time. Individual members will have individual sites when they choose to utilize the contract.

#5 - Bid Submission Date

Vendor, Dec 04, 2025 9:08 AM CST, Not Public - Pending

Hello,

Can we request an extension on the bid submittal date? We are in the process of updating our pricing and I want to assure we can offer the best discount to the participating members within this contract. We lost a few days with the Thanksgiving holiday, and request 12/19 as a bid submittal date.

Thank you.

Region 10 will extend the RFP due date to 2 pm CST on Wednesday, December 17, 2025 in a forthcoming amendment.
